

# ASEAN BCG Researcher Development Program

## 2023

### Application Process

#### Phase 1 – Online Seminars

Applications can be submitted online by clicking <https://bit.ly/3Fu8N8R>

*The participants are required to attend side activities, complete online questionnaires, online polls, join screen capture, etc. The details will be announced accordingly.*

#### Phase 2 – On-site in Thailand

*To participate in Phase 2, applicants must have attended all of the online seminars in Phase 1.*

#### Exposé

- A 1-page exposé of no more than 500 words outlining your intended research project will be required from applicants. The exposé should include the following sections and information:
- Applicant name, disciplinary area of the proposal, and title of the project;
- Introduction of scientific background: the introduction of your research idea based on a related BCG concept in at least 1 topic; 1) agriculture and food 2) health and medical 3) energy, materials, and biochemicals 4) tourism and creative economy
- Approach: briefly describe the procedure, e.g., the methods to achieve your project's purpose.

#### Academic CV

Please provide a 1-page resumé of your academic career.

#### Letter of Support

Please submit a 1-page letter of support from your affiliated institution with details on the human resource development and/or the expected career path of the candidate after passing the program.

#### Selection Criteria

*After completing the online course and providing all documentation of exposé and CV, the applicants will be considered according to the selection procedure as below:*

- **Qualification**

The applicants' CVs display a transparent career path.

- **Relevance**

The proposal shows evidence of scientific value. The project has the potential to produce a high-quality scientific product or publication. The synopsis indicates the extent to which new ideas in the field can be generated or the extent to which established concepts can be revised.

- **Quality**

The synopsis addresses all the topics discussed in the course: 1) introduction 2) aim 3) methodology and 4) relevance. The synopsis is written in such a way that a person without proper knowledge of the topic can assess the scientific value of the proposed project. Additionally, the proposal has coherent and comprehensible ideas for proposing to international funding organizations.

### **File Format**

Please title all PDF files as below:

"familyname\_firstname\_expose"

"familyname\_firstname\_CV"

"familyname\_firstname\_letterofsupport"

**Important notice: the Deadline for PHASE 1 applications is January 31th, 2023, 10 AM (Bangkok time) at registration link: <https://bit.ly/3Fu8N8R>**
